

**THE INSTRUMENT'S COMMENTARY
ON THE MESSAGE OF LOVE FROM ALMIGHTY GOD THE FATHER
MARCH 22, 2010**

Brothers and Sisters:

God the Father told us that difficult moments are coming for humanity.

There has been enough time in which we have been spoken to about the Warning, deeply, and in the last message we were spoken to about the PUNISHMENT. God the Father told us today that: He is Love, but He also has a Hand of justice, and we cannot deny that. There is the love of the Father, the maternal love within the Father, and also the Father's justice. What father does not at some moment, have to call attention to his children? Why is it that we agree more to take only the side of God's Love; for what? To avoid sin. There are people who say: I don't want you to send me messages, don't send me anymore. They accepted them only while love was spoken about and everything was beautiful.

Now, when they are speaking to us about all that is coming, they do not like them: They tell us, "I don't want you to send me more messages." Because we do not want to open our eyes! Because it is very comfortable for many, to live sinning. But when they are told the consequences of sin, they don't want to confront them anymore.

Let us go over the Sacred Scripture: God has always warned. He does not do anything without warning His own, and He is warning us, not only through our means, but through all of His instruments. At this moment, victim souls are suffering greatly.

Today God the Father cited the cosmos: He told us to expand the concept about the universe, projecting ourselves beyond the solar system. To the infinite, where our mind cannot even imagine; the cosmos. All of creation has its gaze fixed on us: on beings who are no longer a likeness of the Love of God.

Then: What is God the Father asking us? He is asking us to be love, because we are constantly suffering catastrophes, earthquakes, tsunamis that have put the Earth's axis out of place. That is why the climate has changed so much, that is why the sun is no longer how it used to be, that is why the moon will also increase its influence over the Earth. And today God the Father has asked us for a radical change and that our weeping for those who do not obey be transformed into prayer, into petition, into fasting, into offering, into suffering, in order to attract souls towards Him again.

Our Mother has warned us that the fire of sin is rising to the surface. And we saw in the news yesterday that they were talking about Iceland, about a volcano that has exploded after 200 years of being inactive and that is now active. And what did the news say? They said: see the spectacle that nature renders to us. What poverty of human beings, what pain! To say "the spectacle that nature renders to man," instead of saying: the sad spectacle man renders before all of creation. And slow and unfortunate men that rejoice

on account of a spectacle that is nothing other than another sign of the nearness and the fulfillment of the prophecies that Mother Mary and Our Lord Jesus Christ have been giving us.

When the Earth's axis continues to run, we lose the center of gravity and the earth begins to spin as its will, then we will fall on our knees, but, as God the Father said today: for a few minutes or a few hours; while the whole of the tribulation takes place, but afterwards you will rise up again against Heaven; and the Miracle will have to come afterwards, and then the Punishment, because you will find a scientific explanation for everything. And then we will have to prepare because with the Punishment... and after the earth is purified, Our Lord will come again to gather His people.

Many people do not want to receive the message because we are talking about the end, but just as Noah's generation had to be exterminated because of sin leaving only Noah and his own, the chosen ones to found the new People. Now this generation must also suffer its own sin and its consequences.

Sometimes at night I look at the stars and say: what a spectacle, oh God, how great You are, what a marvelous work! But we have to think that each star has a harmony and a direct relationship with the earth. All the cosmos has a direct relationship with us, and since it does not feel us to be in tune anymore, everything is coordinating to ask God the Father that we return to that harmony that all of creation has.

I feel that this is not the moment for us to be afraid. It is a time for us to fall on our knees, ask God for Mercy, it is time for us to prepare ourselves spiritually and also materially.

This is the sad history of God's People. This is the history of all who have listened to God's call: we end up crucified, but on a Cross of glory! We have to be willing to crucify our ego. But as the Lord's Word says: fear those who can give death to the soul, not the body.

Therefore let us maintain ourselves firm; let us pay attention to everything God the Father has told us today. He has reminded us that when the Lord came and spoke to His People, announcing to them that He was going to die for the sins of humanity, He gave them beforehand that time of Mercy. When He preached and called His People, many obeyed, but the majority did not obey. When the Lord paid for us and was crucified, there was also a moment then when nature protested against humanity for that disobedience. The earth shook, the sky was darkened, there was wind and an earthquake; so strong that the tombs were opened and the veil of the temple was torn.

Now the same is happening: we are in this time of Mercy, and one does not have to be seen to know that after this time of Mercy, there is going to be a punishment for humanity. Who is going to send it...God? No, we are attracting it, like magnets. That is why we must multiply our prayers and all our commitment.

The christian's place at this moment is: to become an untiring intercessor. We have to give fruit by praying, fasting, carrying out acts of patience and projecting Jesus' Love to others. That is how we will conquer.

Mother Mary cried for Jesus, so much that She felt Her Heart pierced by pain but, who gathered together the disciples, the followers of Jesus after the Lord's Resurrection? The Mother. Let us therefore be imitators of Mother Mary and let us all be a light. Let each one worry about filling the lamp with oil and lighting it. The splendor is for the glory of God, that is what they are asking us at this moment.

LET US BE THE LIGHT OF THE WORLD.
