

**VISION GIVEN BY OUR LORD JESUS CHRIST
TO LUZ DE MARIA
HOLY SATURDAY
APRIL 19, 2025**

I was praying, and suddenly, my beloved Lord granted me the following vision:

Our Lord had told me that He would allow me to accompany His Most Holy Mother.

Our Lord immersed me in Jerusalem. I immediately saw Our Most Holy Mother: she was weeping, and Her Heart was broken. Other women were around Her, and suddenly they called John, who was caring for the Most Holy Mother. Someone said Lazarus' name and he rushed over, calling his sisters and Mary Magdalene.

They left the place, and hearing the shouting, Our Mother came forward and saw Our Lord Jesus Christ carrying the Cross, scourged and bleeding. Our Mother felt Her heart beat rapidly, and Her body was filled with a deep cold. She saw Her Divine Son fall, and without thinking, she ran to Him weeping.

Our Mother embraced Her Divine Son; both felt a dagger in their hearts - the Mother comforting the Son, and the Son comforting the Mother. In the great sadness of the moment, both stopped listening and seeing everything around them. This mutual inner strength took hold in both of them, enabling them to continue.

Memories surfaced in both of them in total harmony, then returning to the reality of the moment: two Hearts in profound Mystical Union, living in order to fulfill the Father's Will.

The Mother who breastfed the God-Man and put Him to sleep in Her arms is the one who sees Him mocked by man's treachery.

Before us, we have the Mother of the Divine Son, pierced by pain, a pain that cannot be humanly withstood - it is a sword lacerating the Immaculate Heart of Our Mother, who in profound silence surrendered herself to God's Plan of Salvation. She listens to God speaking to her in the intense moments of Her Divine Son's Passion. God speaks to Our Mother in the silence kept by the Mother.

Mother's Immaculate Heart grieves deeply, so much so that she feels a physical pain, feeling paralyzed at times by the harshness and lack of compassion of the wicked Roman soldiers.

Our Mother allows me to see her pure Heart, born of the Love of God, and how It suffers due to the harshness of human betrayal. Our Mother knows no anger, disobedience, contempt, or lies, knows no pride or human competition, and much less places of honour, for she is the Crystalline Vessel, the Most Pure Heart, the Immaculate One, born without the stain of original sin, a human being chosen by God to be the Mother of the Second Person of the Most Holy Trinity, the Son of God.

Thus I sensed pains tearing at the heart to the point of death; on several occasions Our Mother felt that She was dying... It is Her Divine Son whom they are leading to death on the

Cross! And Her Heart, totally filled with faith, yet human, had to be assisted by the Angels, who consoled and helped Her in the midst of such pain.

Easter Sunday arrives, and everything changes with the Resurrection of Our Lord Jesus Christ; the triumph over death. Pain continues, but it takes a turn, presented precisely as what it is: the triumph over death.

After the Resurrection, Mother's Heart knows that Her Divine Son will see Her and that every step is the triumph of surrender in silence and sadness. Now Her Son has conquered and grants His children the Redemption that is above all things.

Fiat Voluntas Tua.

Happy Easter in the Resurrection!
